## AMERICANS STORM BELLEAU WOOD

New Positions Dominate Important Ridge Sector—German Soldiers Told That Teutons Had Invaded America.

With the American Army in France, June 26.—The importance of the American advance in Belleau wood is not indicated by the amount of territory captured, as that only amounts to approximately 500 square yards. The new positions of the Americans, however, dominate the ridge beyond so that they now hold the upper hand. Some indication of the thoroughness with which the Americans prepared for the attack may be gleaned from the fact that they fired approximately 5,000 high explosives in one hour. The American gunners worked so fast the Germans said they did not have time to think.

German prisoners captured in the storming of Belleau number 250, including seven officers. One of the officers said the German commanders have been telling the soldiers that the Germans have landed an army in America, captured New York, and are now marching toward Philadelphia. The Germans are also told that submarines have sunk between forty and fifty ships in Long Island Sound.

### Two Aurora Boys Wounded

### AUSTRIAN CASUALTIES

ESTIMATED AT 200,000

Italian Army Headquarters, June 25.—Under the fire of Italian machine guns and artillery, which were brought up rapidly, the Austrian withdrawal across the Piave soon became a disorderly rout. It is estimated the Austrian losses total more than 200,000.

It was a terrible sight as the maddened Austrians fled under the deluge of Italian bullets and shells. They leaped into the river and grabbed pieces of wood or anything that would aid them; they tied themselves to mules and horses, but their efforts were in vain, for as the enemy troops reached the opposite bank they were again caught by the fire of Italian guns, which had been trained accurately on the eastern bank for some days.

Emory Smith will be one of the speakers at the July 4 celebration at Forest Grove.

London, June 26.—Alexander Kerensky, former provisional premier of Russia, has arrived in London. The former premier is on his way to America.

Kerensky was introduced to the British labor conference here this afternoon and was received by the delegates with loud cheers.

"I believe, indeed I am certain," said the former premier, "that the Russian people shortly will join you in the fight for the great cause of freedom."

"I have just come straight from Moscow, and it is my duty as a statesman and a socialist to tell you and the people of the world that the Russian people, the Russian democracy, are fighting against tyranny."

Kerensky's mission in England and the purpose of his visit to America is to inform the people of the two countries, especially the influential Russians, of the exact conditions in Russia, with a view to procuring allied aid for that country.

## WHAT A BANK CHECK SAYS..

A Bank Check has a message aside from its face value. It says that the one who draws it has money in the Bank and that the Bank on which it is drawn will honor this signature. It says that the depositor regularly deposits the money received and pays expenses by writing checks. Your check will say all this for you, when you open an account subject to check with this Bank. You will then have the convenience and safety that the Bank assures and you can write your check for the exact amount of each payment.
